

STEFAN FELD THE ORACLE OF DELPHI

Frequently Asked Questions

Q. Can I choose the same colour *twice* for a certain task (either Statue, Offering, or Monster)?

A. *No. If you've already done (or need to do) a particular colour for a task, you can't choose it again.*

Q. Can I fight Monsters or load Statues or Offerings that I don't need to complete for a task?

A. *No.*

Q. Can I use Favour tokens to recolour Oracle cards?

A. *Yes.*

Q. Do I have to match the colour *and* letter on the Shrine Zeus tile to complete it?

A. *No. Only the colour on the tile has to match your player color (e.g. red roofs for the red player, etc). The Greek letter doesn't matter.*

Q. When using the "Advance all Gods"  Ship tile, does the player get an additional advancement from the injury card during setup?

A. *No. All Gods start at the row showing the number of players participating in the game.*

Q. When using the "Advance all Gods"  Ship tile, are all the Gods considered "not on the lowest row" when another player rolls their dice?

A. *Yes. The Gods for this player will always be "out" and therefore they will always gain a God advancement when other players roll their dice (unless all the rolled colors are on the topmost row).*

Q. Can I use the God **Aphrodite**  at the start of my turn before checking for Injury cards?

A. *No. All God actions can only be used during the 2nd phase of your turn. Checking for Injury cards occurs in the 1st phase.*

Q. Does the God **Apollo**'s  ability allow you to use *all* your dice as any colour?

A. *Yes. You can also use an Oracle Card as any color.*

Q. Do Equipment cards  synergize with God abilities?

A. *Yes.*

Q. Do I still roll my dice *after* reaching Zeus?

A. *Yes.*

Reminders

≈ Can only use 1 Oracle card per turn.

≈ Creature Companion card: Can end on *any* colour tile.

≈ Can only move 1 God per player roll.

≈ Do *not* re-roll after losing a turn.

≈ First player never changes.

≈ When checking for 0 injury cards, it has to be at the *start* of your turn (before removing any injury cards for losing a turn).

≈ If Titan roll is a 6, all players take 2 Injury cards.
